ABOUT SACC INDIA

SACC as a not for profit social organisation has played a pivotal role in empowering the rural and women entrepreneurs with its various initiatives. SACC's initiatives are stimulated with the support of successful entrepreneurs and professionals willing to give back to the startup ecosystem.

Started in 2014, SACC at the grass-root level incubates and accelerates over 150 Startups founded by first generation founders across northern India while sensitising thousands of aspiring entrepreneurs. Our state of the art co-working facility Startup in a box in Mohali has evolved as a technology hub, housing 35 startups of the region.

Startup Accelerator Chamber of Commerce has a unified mission of identifying your entrepreneurial dreams and accelerating them to realisation.

OUR VISION

We believe that with its largest pool of young population and diverse demographics, India has the potential of becoming the greatest global Startup Ecosystem. Our vision is to create an empowering Startup ecosystem which focuses on building a self reliant nation with most of its young population choosing entrepreneurship as career.

OUR MISSION

SACC India envisages creating an inclusive startup ecosystem which supports startup founders at the grass root level in every district of the region. We are on a mission to bring awareness of entrepreneurship to students, women and professionals with diverse skillset. With our framework, we aim to create massive jobs through startups, promote innovation and attract venture capital to the nation.

PRESIDENT'S MESSAGE

We aim to have a successful run in 2022, by nurturing more and more Startups and build sustaining ecosystem for them. Looking forward to your continued support and blessings!

Entrepreneurship in India is changing landscapes with thousands of people taking entrepreneurial plunge every year. This combined with global venture capital flowing into Indian startups is just phenomenal. We saw 2021 as a marquee year in the Indian startup ecosystem with 44 startups achieving the unicorn status.

But there is an India beyond technology and sophisticated business conferences which is where the real grassroot problems are identified by the changemakers who want to be a part of the entrepreneurial wave.

SACC India is committed to identifying such changemakers and supporting them in all possible ways to strengthen nation building. We have been emphasising a lot on community building from the very day of our inception and with our team putting their tireless efforts for making it happen, the impact is quite heartening.

We want to take entrepreneurship to every nook and corner of the country so our youth is not directionless. The potential of the youth is enormous and we must create a support system for inspiring the generations to come.

SACC through its 5 startup incubators catered to thousands of students throughout the year physically and virtually despite tough circumstances of pandemic. Our 5 startup incubators across northern India offer state of the art facilities spread over a collective 15000 sq ft incubation space. In 2021, our incubated startups were able to collectively take a 3 fold growth in their revenue over the previous year i.e. 2020.

It is also truly inspiring to see that women make over 60% of the leadership across all our incubated startups which is much higher than the national average. I believe women are going to lead this wave of entrepreneurship in the times to come.

With our nation ready to take off for claiming the number one spot in the global startup ecosystem, we at SACC will keep striving hard to supercharge this growth. Please be a part of our community by following our work on social media and being a part of our physical/ virtual events.

I look forward to connecting with you.

Mr. Manibal Dhariwal

Chapter President of SACC India

CEO MESSAGE

At SACC India, we are delighted to be a part of the wave where young students and entrepreneurs not just talk about ideas, they dare to give up on their promising careers to start executing.

The Indian startup ecosystem is at an inflection point where our startups are catching up fast with the speed of the rest of the world. We are no longer a tech support country depending on other countries for the basic innovation. We are instead creating a strong ecosystem where grass root innovation is leading us to being a self-sufficient nation.

With our honourable prime minister's vision, we anticipate to turn from being a consumption economy to a production economy- all thanks to the micro and small enterprises mushrooming across the nation.

At SACC India, we are delighted to be a part of the wave where young students and entrepreneurs not just talk about ideas, they dare to give up on their promising careers to start executing. They choose to take the leap of faith and jump off the cliff.

2021 has been an amazing year for us as we were able to build some really meaningful partnerships with organisations like Amazon Karigar, Zoho Corp and HDFC banks among many others. Our digital first approach for the growth of our incubated startups has turned out to be a big hit, giving our startups over 200% growth in their revenue.

We created and successfully ran some acceleration series like Accelerator week, awareness week and technology made easy with the help of our amazing mentors on board. I am in awe of the exemplary impact SACC India team continues to create through their efforts of hand holding rural and women entrepreneurs.

As we enter 2022, we strengthen our mission to help build a conducive and inclusive startup ecosystem.

We are really thankful to all our mentors, board members and sponsors for supporting us throughout the year. I truly believe that this is just the beginning and we have a long way to go for creating a wider footprint in the entrepreneurial ecosystem of India.

Mr. Vineet Khurana

CEO, SACC India

ABOUT STARTUP IN A BOX

MOHALI

Startup in a box is a leading coworking space in Mohali, provides coworking solutions for freelancers, remote employees and startups. Our Mission at Startup in a Box is to offer the best facilities, amenities and features under one roof. We provide a work-friendly environment at the delightful central location allowing businesses to focus on their work in a secure and peaceful atmosphere. Uninterrupted internet, fully air-conditioned lounge, offices and 24/7 power supply back up allow businesses to work comfortably in a collaborative workspace.

SACC INITIATIVES

STARTUP IN A BOX

Startup in a box was introduced a vibrant community of startups created by SACC India as first of its kind initiative in 2015. It offered state of the art co-working facility for entrepreneurs looking for plug and play option. Initially started with just 3000 sqft area, it expanded to over 15000 sqft over the years.

It provides startups individual seats and private cabins at affordable prices. The startups also get complimentary access to facilities like business networking, mentorship, library, pantry, recreational area and meeting rooms.

SACC UNIVERSITY

SACC University, a SACC initiative to make startup education accessible to all.

To meet our goal of an inclusive startup ecosystem, we introduced SACC university to cater to entrepreneurs at grass root levels. We believe that the startup education should start at school and college level to spark innovation in young minds.

With the top tier content contributed by many successful entrepreneurs and seasoned professionals, SACC University inculcates the entrepreneurial dream amongst the young minds.

What is in it for aspiring entrepreneurs?

First generation entrepreneurs struggle with various aspects of running a business. They require consistent handholding and advisory for product development, market validation, marketing, sales, finance and networking. SACC University provides its technology platform for guiding them at every step in their journey of entrepreneurship.

PARTNERSHIPS & COLLABORATION

We are proud to continue partnering with the Unicorn Battles in ASIA.

We are proud to be the Ecosystem Partner of NextBIGidea.

We are elated to announce that SACC India has partnered with Twilio, a developer-oriented platform for communication.

With this partnership our incubated startups will be eligible for the various benefits including free credits to use AWS products, free training and technical support.

SACC India is delighted to announce that we are partnering with Amazon Karigar, under which our Incubated Startups will be taken live on Amazon's Marketplace.

Under this partnership, our incubated startups will be entitled to avail Zoho Wallet credits to use Zoho's 45+ integrated applications for streamlining their businesses.

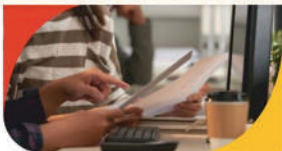

This partnership with Toronto Business Development Centre aims to help startup founders from the SACC community to scale in the North American market via Canada.

SACC INDIA FEATURED IN THE REPORT OF INVEST PUNJAB

Startup Accelerator Chamber of Commerce (SACC) was prominently featured in a Policy Study on 'Innovation and Incubation Ecosystem in Punjab' undertaken by Punjab State Council for Science & Technology in collaboration with Invest Punjab and Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ India).

EXPOSURE FOR INCUBATED STARTUPS

The Department of Higher Education, Haryana and SACC India designed a two weeks long Virtual Acceleration Program for their incubated Startups across five incubation centres in north India. With the core vision of supporting the founders by providing them opportunities to collaborate with the industry leaders and getting the required validation, the program was a huge success.

The Department of Higher Education, Haryana and SACC India Incubated Startup Mechanic Guru who won the First Prize in the B Plan Champions of Champ 2021.

Amazon onboards our Incubated startups Diva Damm and Myiaar Handicraft. Under this partnership, Diva Damm and Myiaar Handicraft will get all the possible onboarding help with dedicated support in product shoot, cataloguing and selling.

When hard work meets commitment, the outcome is extraordinary. With corporate gifting orders from our supporters, SACC's Incubated startups across all the incubators are fulfilling over 1000 boxes this Diwali. Kudos to team SACC India and all the incubated Startups.

EXHIBITION-CUM-SALE

The Department of Higher Education and SACC India organised various Exhibitions at multiple locations for the Entrepreneurs incubated by Startup Incubators. These young entrepreneurs exhibited their products with confidence across categories like Art & Craft, Organic Spices, Electronics, Lifestyle etc.

With this confidence building on how to sell their products, they are ready to conquer the world. Department of Higher Education Haryana and SACC India are committed to their success.

EVENTS AND OUTREACH AWARENESS SESSIONS

Startup Acceleration Program

The Department of Higher Education, Haryana and SACC India designed a two weeks long Virtual Acceleration Program for their incubated Startups across five incubation centres in north India.

With the core vision of supporting the founders by providing them opportunities to collaborate with the industry leaders and getting the required validation, the program was a huge success.

Startup Awareness Week

The Department of Higher Education, Haryana, and SACC India organised the Startup Awareness Week for students who have a natural entrepreneurial streak in them. Begun at 17 May 2021 to 28th May 2021, the events was dedicated to sharing resources, skills, and knowledge to young entrepreneurs and startup enthusiasts who have a wish to grow.

Technology Made Easy For Startups

This program was organised by Department of Higher Education, Haryana and SACC India for Startup Founders and students interested in doing Business.

It has all that an entrepreneur should know before starting a start-up.

Zero Error Startup

This program was organised by Department of Higher Education, Haryana and SACC India for Startup Founders and students interested in doing Business.

The program helped all the participants to understand about GST filing, trademark violation and government policies that can help them to grow and start their startup venture.

Entrepreneurship Awareness Camp, Gurugram

On February 11, 2021, SACC Incubator team Gurugram conducted an Entrepreneurship Awareness Camp at Government PG College, Sector 9, Gurugram, guiding the students from Commerce Stream on effective business opportunities while finding ideas that can be turned into potential startups.

Startup Awareness Outreach Session, Faridabad

On February 25, 2021, SACC team Faridabad conducted a startup awareness outreach session at Government College, Kheri Gujran, Faridabad, where a large group of students was addressed to create and foster business ideas that can turn into potential startups.

Awareness Session On The Benefits Of Startup Incubator and Entrepreneurship

On March 30, 2021, SACC team Karnal conducted an awareness session at Pt. Chiranjil Lal Sharma Govt. P.G. College, Karnal, which got participation from 45 students. The session helped the students learn the benefits of startup incubator and entrepreneurship, along with insights on shaping their career journeys.

Live Pitching Session at Startup Incubator, Panchkula

On April 15, 2021, SACC India conducted a live pitching session at Startup Incubator, Panchkula where students were introduced to the idea of persuasive pitching that can help them drive potential business opportunities.

Startup Mentoring & Counselling Session

On August 19, 2021, SACC Incubator team Hisar conducted a startup mentoring and counseling session at startup incubator cum center of excellence, Hisar. The goal of the session was to raise awareness and provide guidance to budding startup owners about the entrepreneurial journey.

Startup Awareness Session for NCC Cadets

In collaboration with The Department of Higher Education, Haryana, SACC team Panchkula organised a Startup Awareness Session for NCC Cadets on October 1, 2021, at Startup Incubator cum Centre of Excellence, Panchkula. The goal of this session was to generate awareness among students on how startup culture is flourishing throughout the state of Haryana and why it is not as difficult as it sounds to start their own venture and become self-reliant.

Startup Awareness Outreach Session, Faridabad

On 18 October 2021, SACC team Faridabad conducted an entrepreneurship awareness session at Government College for Women, Faridabad, where students from various fields and institutions were provided with the necessary guidance on entrepreneurship and leading a successful business journey.

Awareness Session on The Benefits of Startup Incubator

In collaboration with the Department of Higher Education, Haryana, the Startup Incubator team Gurugram conducted a Bootcamp for 800 students at Government College, Sidhrawali on 16 November 2021. The speaker of the event educated young minds about how entrepreneurship can help them leave a mark on the world and how they can get started.

Startup Awareness Outreach Session, Hisar

On Dec 1, 2021, SACC India organised a Startup Awareness outreach session at Government College for Women, Hisar explaining the concept of startup incubator and entrepreneurship. The event addressed around 100 students, along with teachers from various departments. They were introduced to the incubator program and counseled to share their business ideas with our team.

Startup Awareness & 1-on-1 Mentoring Session, Karnal

On Dec 9, 2021, SACC Incubator team Karnal conducted a Startup awareness and 1-on-1 mentoring session at Startup Incubator cum Centre of Excellence, Karnal, where some startup enthusiasts shared their ideas and encouraged other students to come up with startup prototypes.

Startup Ecosystem Awareness & Outreach Session, Panchkula

On Dec 13th, 2021, the SACC Incubator team Panchkula conducted an awareness session at Government PG College, Sector 1 Panchkula, under which more than 50 students from non-technical backgrounds were introduced to the concept of startup incubators and entrepreneurship.

Entrepreneurship Awareness Session, Gurugram

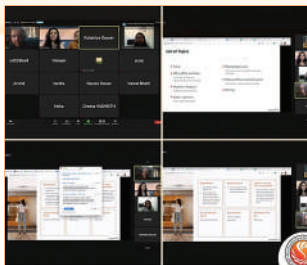

To help students learn the idea of startup building, SACC Incubator team Gurugram conducted an awareness session at Govt. College for Girls, Sector 14, Gurugram, on Dec 15, 2021. The session helped students learn the benefits of startup culture. The experts delivered insights on how SACC India could help them establish business with value.

VIRTUAL SESSIONS

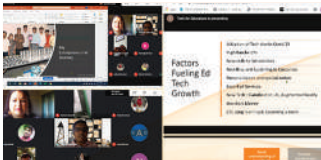

Virtual Digital Marketing Session

On April 14, 2021, SACC India conducted a Virtual Digital Marketing Q&A Session with our expert Kunal Mathur, Head of Digital Fundraising, UNICEF India Country Office. The session had enthusiastic participation from approx. 30 students who had an amazing time learning the basics and essentials of the Digital Marketing Vertical.

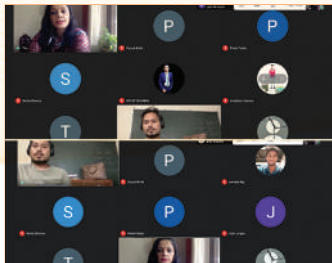

Webinar on Setting Startup in Ed Tech

To take the idea of Ed Tech to young students and would-be entrepreneurs, SACC India conducted a live webinar on the topic, "Setting Startup in Ed Tech" with our expert to provided with the necessary insights on the tools that can help the Ed Tech Startups to succeed.

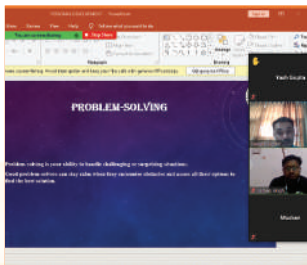

Virtual Startup Awareness Session

On April 28, 2021, SACC India conducted an online awareness session at Dronacharya Govt. College, Gurugram, where students were introduced to the concept of startup building and how SACC India could help them to process their business ideas and establish their brands successfully.

Webinar on Personality Development

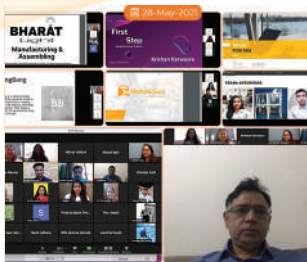

Since personal skills are as important as business skills, Startup Incubator team Karnal organised a webinar on Personal Development which was meant to guide students on skills that not only improve their personality and persuasion skills but can help add value to their startups.

Virtual Pitching Session

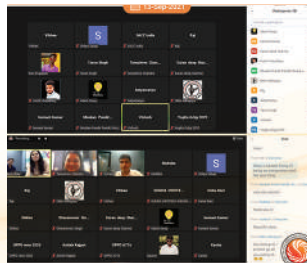

The Virtual Pitch session was conducted in the presence of Mr. Vijay Singh Dahiya, Director General, Higher Education Haryana among other dignitaries. He, along with all the Principals from the Government college of Panchkula, Karnal, Hisar, Faridabad and Gurugram, guided the participants on valuable ideas and tips to boost their business journeys while also making them aware about the entire concept of the StartupEcosystem.

Notably, as many as six startups were shortlisted to pitch their startup ideas in front of the leading lights.

Young entrepreneurs bet big on e-comm

Young Entrepreneurs

Young professionals need a right direction to channelise their efforts. Our motto has always been to empower young entrepreneurs on the path and providing them all resources they need.

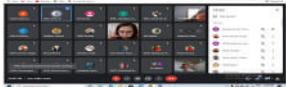

Young professionals need a right direction to channelise their efforts. Our motto has always been to empower young entrepreneurs on the path and providing them all resources they need.

I launched my brand in January by using Creativity in an office, but soon we will be back outside also. Women and their jobs: Women will provide the biggest support to establishing a start-up, giving her hand the much-needed support. Recently, I launched 'Bain' brand. It's, mainly, 'Bain' brand. It's, mainly, 'Bain' brand. It's, mainly, 'Bain' brand.

SACC intention for both products with high margin rates the world through e-commerce platforms. The need for e-commerce is increasing due to the lack of direction in channelising the efforts by leaving them the way have already done in the world. In other words, I empower youth, the concept of entrepreneurship is necessary help. Our motto has always been to empower young entrepreneurs on the path and providing them all resources they need.

INCUBATED STARTUPS TESTIMONIALS

From an aimless student to a startup founder, the Startup Incubator has been instrumental in helping me find purpose. During the second phase of lockdown, I religiously attended the Awareness Program followed by Technology Made Easy sessions, these helped broaden my horizon. Until then, I always thought building a startup was an expensive affair. Thanks to these programs, I learned about the free options available online. I would like to take this opportunity to thank the Department of Higher Education and SACC India for incubating me and giving me a chance to fulfill my dreams. With the Startup Incubator, my startup and I are both evolving.

Hemant
Founder, EcorganicIndia

Shreya Pandey
Founder, Diva Damm

Starting as a hobby, I developed a business idea and launched Diva Damm while juggling my studies—and chose to run it as an all-women enterprise. Today, I am grateful for the Incubator, which was provided to us by the Department of Higher Education Haryana and the SACC Team, for allowing me to launch my startup, Diva Damm, as an Amazon seller, providing delightful dresses for plus-size customers, providing livelihoods for women, and thinking of expanding my startup to a Big Brand.

The thought of doing something of own always excites and motivates us and with the same thought in mind we started Arsh traders which deals in handicraft items made from brass & copper as not only they are good for our health but they are also considered as a sign of good luck & prosperity. We feel very proud to be a part of the incubation centre and with the help of SACC India we have received our first order of corporate gifting as well and not only this with the help of the team we have conducted various exhibition in different colleges.

Shweta and Arvind
Founders, Arsh Traders

INCUBATED STARTUPS TESTIMONIALS

Taasvim deals in herbal handmade soaps. Since I have sensitive skin I thought of having herbal soaps as a part of my lifestyle. But, the ones present in the market are highly-priced and unaffordable. I thought of moving into this idea. Startup Accelerator Chamber of Commerce has been of great help to us. They assisted us in getting our very first corporate order. SACC mentors have been guiding us. We are grateful for being a part of the SACC family.

Tamanna and Vishesh
Founders, Taasvim

Priyanka
Founder, Shashakt Nari
Healthcare

The entire SACC India Incubator team is constantly trying to connect you to the right people to solve problems. They believe in you. It is not always about a major milestone in a start-up, but several little speed bumps along the way, which I got tremendous help from the incubator established by Department of Higher Education, Haryana towards resolution.

With the help of Startup Incubator team we have completed all the legal formalities of our business and now we are working on the marketing strategy of our business. The Startup Incubator team helped me understand how I can market my products to reach a wider audience. In collaboration with the Startup Incubator team and Govt. of Haryana, I am able to start my business and now I am running a good business.

Himanshu
Founder, Gogia Enterprise

STARTUPS INCUBATED AT SACC INDIA

Here is a list of startups that are incubated in Startup Incubators located at the different locations of Haryana.

Divya Damm

Founder & CEO: Shreya Pandey
Location: Panchkula

DivyaDamm is the brainchild of a young girl who was motivated to start her own clothing label for her love of designer clothes and the plight of women who are unemployed. With a vision and a determination to be self-sufficient, she began her entrepreneurial journey by selling designer standard and plus size clothing to women of all ages. She adores it when women show off their ability to try on new outfits and embrace themselves as they are. Diva Damm's sole motive behind the business is to provide their customer the best quality clothing so that women can feel confident, comfortable, satisfied after wearing their beautiful attire.

**Sashakt Nari
Healthcare**

Founder: Priyanka
Location: Panchkula

This business is founded with the goal of becoming a direct selling company that sells high-quality, 100% NATURAL CERTIFIED, FSSAI-APPROVED ayurvedic products and dietary supplements for Woman wellness. Angel Craft

Founder: Bharti
Location: Gurugram

It is reviving the dying crafts art of making papier-mâché products and grass baskets. This Haryana based startup transforms waste paper into gorgeous art pieces. With us you can immerse yourself in the world of Indian handicrafts and works of art. We also teach this stunning art. Buy from us to pay homage to the colourful and unique handicraft.

Taasvim

Founder: Vishesh And Tamanna
Location: Gurugram

TAASVIM works in herbal scented things such as soaps and candles. These soaps are handcrafted and made with natural products. Each and every product of TAASVIM is 100% handmade by skilled artisans from Haryana. Only natural ingredients are used to make these products so that they are skin friendly.

Mental Health
